Energy

+ **Lightest on the market: 450g**

+ Optimal energy return and guaranteed anti-fatigue properties thanks to the Super Critical Foam sole made from PEBAX® by ARKEMA

+ Protects electronic components against electrostatic discharge

+ Maximum safety thanks to the Tip S-certified puncture-resistant sole

+ Strength and durability thanks to the HRO-certified sole

THE MOST

THE TECHIEST

The PRO X'FOAM® insole is made from **supercritical foam based on PEBAX® by ARKEMA**, a flagship technology **derived directly from the world of RUNNING**.

It offers optimal energy return and **guaranteed fatigue relief**, thanks to its **long-lasting cushioning** and **exceptional lightness**.

PRO X'FOAM®

EXO-KNIT

TECHNICAL KNIT

+ TPU REINFORCEMENT

Breathable and water-repellent

TOE CAP

Nano-reinforced composite – 200 J
Enhanced durability and strength

JGRIPP

WEAR-RESISTANT SOLE DUAL-COMPOUND NITRILE

Adhesion, durability
and heat resistance

PRO X'FOAM®

PEBAX® BASE SOLE BY ARKEMA

Optimal energy return
Exceptional lightness

INSOLE

Promotes air circulation
Absorbs shocks

ANTI-PUNCTURE

Flexible and lightweight
Extremely durable

SUPERBAX
