66% recycled materials

LACE

100% recycled materials

PU TEK® SPIDER

Breathable and abrasion-resistant
68% recycled polyester

INSOLE

Compensated and maxi-comfort
BASF® Biomass Balance

BASF® BIOMASS BALANCE PU SOLE

60% reduction in carbon footprint
100% renewable resources

+ Certified Carbon Neutral by
Bureau Veritas to ISO 14068-1
standard

+ For jobs involving prolonged standing

+ Suitable for environments with metal
detectors

+ Improves body weight distribution by
reducing pressure points

+ Relieves body stress and prevents the
risk of lower-limb RSI

THE MOST

THE TECHIEST

A solution to reduce the risk of RSI in jobs
involving prolonged standing.

Less plantar pressure, more comfort, less
fatigue - **your anti-fatigue mat in direct
contact with the foot!**

* Calculated according to EN ISO 14021: 2016, which is based on the total weight of the shoe
