68% recycled polyester

ANTI-PUNCTURE INSERT

54% lighter than a standard anti-puncture insert
50% recycled polyester

BIOMASS BALANCE PU SOLE FROM BASF®

60% reduction in carbon footprint
100% renewable resources

BASF
We create chemistry

+ Certified Carbon Neutral by
Bureau Veritas to ISO 14068-1
standard

+ Maximum lightness

+ Suitable for all work situations in less
demanding environments

+ Strength of materials exceeds normative
requirements

+ DGUV 112-191 certified, with the option
of replacing the insole with a SECOSOL®
orthopaedic insole

THE MOST

THE TECHIEST

Thanks to new, ultra-light materials with excellent technical performance, the HELIUM collection has succeeded in guaranteeing the best 'durability/weight' ratio, combining resistance to the workplace with an unrivalled feeling of lightness.

* Calculated according to EN ISO 14021: 2016, which is based on the total weight of the shoe
